

Professional National Team Athletes
who have trained in the Athletic Republic network.

Athletic Republic training centers have made a dramatic impact on so many athletes' lives. We've helped them earn a place on the team and a spot in the starting line-up. We've helped them develop their athletic capabilities so they could play in college and earn a pro contract. Their stories from pee wee to pro are as compelling as the passion our trainers have for each athlete's development.

We have reconstructed the list of Professional & Olympic Athletes that have trained with our system for your reference and internal use. The list is intended to illustrate the sheer volume of established athletes who have trained with us these past 20 years and provide another point of validation for our trainers, programming and facilities.

While the list of extraordinarily gifted athletes that have trained in our network is truly impressive, we are quite sure it is incomplete. We are hoping you will dedicate a few minutes to add or update the list of athletes your center has trained (athletes name, sport, professional or Olympic team, facility trained at, accomplishments) and email your list to Tad O'Had at tohad@athleticrepublic.com so we may compile an accurate and complete list of elite athletes.

Please respect that this list is not a list of athletes who endorse our training system; it is list of athletes that have trained with a member of Athletic Republic and recognized the positive training effects of our Acceleration Programs. You are encouraged to use the volume of data and stand-out names as you sell new program contracts or develop new business. We just ask that you do not include them in any of your marketing materials without corporate's or the athlete's consent.

You should take great pride in the fact that the reason this list is so incredibly impressive is because our training system works and it is delivered by qualified professional trainers committed to helping every athletes they train reach their fullest potential.

Please DO NOT share, distribute, reproduce or post this list in any form. It is provided for the internal use of the Athletic Republic network and is expected to expand in the coming weeks as you and other network members contribute to its development. We expect to re-issue the list and include references to any athlete who has agreed to lend their name and endorsement to our program. Please review the usage notes on the following page regarding the list criteria and usage policies.

Thank you for your commitment to these athletes, our programs and taking the time to help us build this valuable marketing resource.

The Athletic Republic Corporate Team

Professional National Team Athletes
who have trained in the Athletic Republic network.

GUIDELINES TO THE Athletic Republic PROFESSIONAL & OLYMPIC ATHLETE LIST:

**The following are the guidelines to include athletes on the Athletic Republic Pro Athlete & Olympic Athlete list.*

- Athlete must have had to partake in an Athletic Republic program. Programs such as: Acceleration training, Maintenance Training, ACL Bridge, Hockey Team Training, Football Protocol etc.. Please only add athletes that have seen the benefits first hand.
- Athletes that are currently in NCAA and on a national team or Olympic team are not to be included due to NCAA regulations.
- High-School, College and Amateur status athletes are not to be included.
- Athletes that are performing at the highest level of their chosen sport i.e.: Olympics, X-Games, World Championships, Professional Level of any sorts, National Teams are to be included.

*Athlete list for **IN-HOUSE USE ONLY** - list cannot be made public!

*Athletes listed may not be considered as consultants but have participated in at least one level of the Acceleration training.

*List is not complete and always being updated with network input
